

## TATA-EDGE

Smart computer classes are provided by Tata Edge. Each Edge room has a white and green board to be used by the teacher simultaneously. For every standard one class room is provided by tata edge class, where the classes use them in turns. This kindles the young minds and it is supported by the textual lessons.

- ✓ Improves academic performance of students.
- ✓ Improves teacher's effectiveness.
- ✓ Makes learning an enjoyable experience.
- ✓ Familiarizes the students with modern technology. Transforms the difficult subjects as more interesting ones.

## TECHNOLOGY

Technology is the new arrow in the quiver of the fittest  
Smart classes for smart children.

“A well-balanced education is the key to individual achievement”. The world has moved on to the new age of information technology and it is important that we take full advantage of it. Sensing the need, ICF Silver Jubilee Nursery and primary School has introduced the benefits of Information Technology in the classroom at an early stage.

During the previous decade Information Technology has grown by leaps and bounds. This has brought many positive developments in the field of education and has redefined the fundamentals of education and learning. Leveraging technology is now possible to teach in a more interesting and engaging manner. Information Technology also helps teachers to deal with very difficult subjects in a simplified manner and easy-to-understand. It reorients the child and moves him or her from the 3 Us (Uninspired, Uninteresting and Unhappiness) to the 3 Ds (Determination, Devotion and Dedication).
